COMPUTER SCIENCE

Shizza Shafqat

Senior Fellow

Islamabad, Pakistan

What made you choose Computer Science?

I realized I can make anything if I know how to code!

What is your favorite CS course you've taken so far, and why?

401 - Algorithms, Computation and Elections. Seeing computer science in action in elections, voting and fairness (etc) was fun!

What is your dream job, and why?

Solving complex, cross-team operational challenges at large companies with AI and software.

When you're not doing something CS-related, what are you most likely doing?

Doodling, drawing and drinking coffee!

You know you're a CS major when...

You start laughing at coding jokes and your instagram algorithm is all computer science memes.
